

CUSTOMER ACQUISITION ASSESSMENT

IMPROVING CUSTOMER SERVICE

ARE YOU PREPARED TO ACHIEVE SUSTAINABLE GROWTH?

Getting customers in today's competitive market space is increasingly difficult. Pricing and product are important, yet they usually only level the playing field. Sales methodologies and selling programs improve your odds, but effective and efficient processes, capabilities, and functions can be the key to bringing it all together for significant and sustainable growth.

THE RESOURCE PRO APPROACH

ReSource Pro's Customer Acquisition Assessment provides an objective and thorough review of the processes, capabilities, and organizational functions that impact the growth of your customer base. We go beyond pricing, product, selling, or servicing methodologies—equipping you with the insights you need to maximize your resources.

We take a collaborative approach to each engagement, working closely with your staff to gather essential input and develop a customized improvement plan. This approach also promotes acceptance and ownership for managers and front-line employees—an often-overlooked step that is vital to the success of any change initiative. Lastly, the use of process analysis techniques assures organizational alignment

and confirms that business processes and technology needs are properly integrated.

Part of what makes our assessment such a valuable tool for senior leaders is the use of our exclusive Views—targeted analyses that focus on individual components of a healthy customer acquisition environment. Each View stands alone as its own category, yet they work together to provide an objective picture—and a fresh perspective—of your sales organization.
